

My DIPG Navigator™

**One-on-one support
for families and patients
battling DIPG/DMG**

With the assistance of My DIPG Navigator, you are not alone in your fight. Our dedicated Nurse Navigators provide the reliable information a family needs to understand and manage care for their loved one with DIPG/DMG. And this resource is available to you for free.

Deeply experienced in pediatric oncology, our nurses share options and expectations and connect families to the resources essential to making the most informed decisions throughout their cancer journey.

guidance • support • knowledge

**You are not alone
in your battle with
DIPG/DMG.**

MY DIPG NAVIGATOR™

DIPG/DMG Nurse Guidance

**A unique, free resource
designed to help navigate
a DIPG/DMG diagnosis**

Please note: My DIPG Navigator is only available to patients diagnosed with DIPG or DMG and receiving treatment in the United States.

mydipgnavigator.org

How My DIPG Navigator™ works

Designed by parents who have faced a DIPG/DMG diagnosis, My DIPG Navigator provides the resources needed to help families feel confident that they're making the most informed decisions and doing what's best for their family.

Patients and families can visit our website for access to free, one-on-one support: mydipgnavigator.org

How the process generally works:

1

Submit information:

Go to our website at mydipgnavigator.org and fill out a short form.

2

Receive an email within 12 hours:

One of our DIPG/DMG-experienced nurses will reach out directly.

3

Ongoing support: Your Nurse Navigator offers guidance on treatment options, advice, and emotional support throughout your journey.

Information and guidance for families and patients

Discuss treatment options and decisions

Connect patients and families to DIPG/DMG medical experts

Talk about what's happening and what to expect

Act as a sounding board as someone who cares

Empowering Help

Since its inception in 2021, the My DIPG Navigator programs has served **hundreds** of families. Through education, connection and support, our team of nurses are ready to help.

During some of the most difficult and heartbreaking moments, our nurse navigator provided us with the comfort and information we needed. They are truly changing the DIPG community.

Meghan Scoggins,
Mom of Kenzie

My DIPG Navigator offers compassionate support and guidance to patients and families, ensuring they have the resources and assistance needed throughout their journey.

Dr. Nicholas Vitanza
Seattle Children's Hospital
