

WORKING TOGETHER FOR A CURE

Finding a cure for childhood brain cancer is no easy task. We believe a collaborative approach is the only way a cure will be found. **We welcome families interested in actively fundraising to support our mission to fund game-changing research and provide navigation to families in the fight.** By aligning as a ChadTough Defeat DIPG Family Partner, you will join a community of more than 40 other families who have also chosen to embrace the foundation as their own.

For more information, please email Laura@chadtough.org or scan the QR code.

KEY BENEFITS

- + The ability to help advance the mission without having to set up and manage your own 501c3
- + Treated as part of the foundation with access to exclusive events, research information, and business updates
- + Support for your fundraising efforts through prebuilt programs, sharing of best practices, and aid from staff
- + Opportunity to honor your child through a personalized website page and custom logo
- + Recognized as a Family Partner on the website, in press releases, in emails, and at events

BASE EXPECTATIONS

- + Commit to advancing the foundation's mission by striving to fundraise at least \$5,000 each calendar year for the foundation
- + Engage as part of the foundation (e.g., participate in Family Partner meetings, share our social media content, attend foundation events)
- + Embrace the foundation as your own, focusing the majority of your fundraising efforts related to ChadTough's mission to benefit the foundation

If you have your own charity and are interested in partnership, please consider our Navigator Partner or Research Partner program. Learn more by reaching out to Shani@chadtough.org.
