

Each year, hundreds of children are diagnosed with DIPG, and families are told there is no cure. It's been 10 years since this disease took our son

Chad, yet it continues to steal so many precious lives. These children deserve to be remembered—and they deserved a fighting chance.

Every dollar raised at this event funds critical research and supports families through our My DIPG Navigator program, ensuring no one faces this diagnosis alone.

At this year's event, I'll share the progress your generosity makes possible, and you'll hear from a Nurse Navigator about the vital support they provide. Plus, you'll have the chance to shop, have some fun, and enjoy a day out with friends—all while making a meaningful impact.

Join us in funding research and giving hope to kids who deserve more time, better treatments, and a future. We won't stop fighting until that day comes.
