

NAVIGATOR PARTNER PROGRAM

TEAMING TOGETHER TO PROVIDE HELP

We welcome the chance to work collaboratively with others interested in making the My DIPG Navigator program available to families facing the urgent needs accompanying a DIPG/DMG diagnosis.

Launched in 2022, My DIPG Navigator provides free, one-on-one guidance from experienced pediatric oncology nurses for patients and their families facing a DIPG or DMG diagnosis. Gaining access to the most up-to-date treatment information has been challenging for many patients and their families, particularly as they grapple with the devastating prognosis. The My DIPG Navigator team, including an experienced social worker, empowers patients and their families with the information and resources necessary to make informed decisions throughout their cancer journey.

WE ARE TOUGHER TOGETHER

We look forward to working with you to make a difference for DIPG/DMG families.

For annual contributions of at least **\$5,000**, My DIPG Navigator partners will receive:

- + Logo on website
- + Name recognition in press releases
- + Invitation to exclusive bi-annual update meeting
- + Invitation to annual Research Workshop & Gala
